

Week beginning 4th December 2021

**Phonic s:** Recap of sounds already learnt- how many sounds and letters can you remember?  
What words can you make with your sounds, for example cat.  
Can you think of any words that rhyme with the words you have made?  
Have someone at home make some three letter words and have a go at reading them, using your phonic knowledge.

**Maths:** A look back at the numbers 1 to 10.  
How many different ways can you make each number on your fingers?  
How many different ways can you make 10? You could use different objects around the house to help you do this.  
Can you go on a number hunt around your house? An adult could write each number on a piece of paper and you can try and find them. Once you have found them, can you put them in the right order?

**Topic:** In Reception this week we are starting to learn about Space.  
Have a go at making a mind map of all the things you already know about Space?  
Write a list of questions of things you would like to find out about Space.

**Activities:** Have a go at doing/making some rhyming and phonics games. Here are a selection:
